## **AbbyPD investigating theft of kittens**

Abbotsford Police investigators are investigating a break-and-enter to a residence in the 32900 blk of Bevan Ave in which five very young kittens were taken. These kittens are only 10 days old and need the care of their mom, Mittens.

The suspect entered the residence through an unlocked door on the morning of Tuesday March 30, 2021 at approximately 3 am. In addition to the kittens, other identifiable items including passports and an Apple TV were stolen (some items have since been recovered).

The suspect is described as a Caucasian male in his 20s, tall, slim build and wearing a light-coloured hoodie and dark pants.

This break and enter is still under investigation. Investigators believe that the thief may attempt to sell these kittens online or in public. Please contact the Abbotsford Police Department with any information at 604-859-5225.
