## AbbyPD Geocaching – Mystery of '21 Series – Beginning June 1, 2021

AbbyPD invites you to play the “Mystery of '21” Geocaching game! In this game you will be a detective searching for clues as you help Constable Cuffs investigate *The Case of the Missing Trethewey Topaz*. This is an outdoor activity that can be enjoyed by young and old, with a friend, or on your own.

### How it works....

Print out the AbbyPD Geocaching Crossword / Word Scramble from our website at <https://www.abbypd.ca/files/File/Community%20Files/jewel%20crossword.jpg>

Download the FREE Geocaching app ([www.geocaching.com](http://www.geocaching.com)) to your GPS-enabled mobile device. You only need the free version to play along. Create a new profile or log in to your existing Geocaching account.

Search for the AbbyPD Geocaches using these unique GC codes:

1. GC9BJK2
2. GC9BJKP
3. GC9BJM5
4. GC9BJMF
5. GC9BJMG
6. GC9BJN4

Use the Geocaching app to locate the six AbbyPD caches. The caches will only be found on public property and they will not be placed in a manner that damages or harms property or the environment.

All caches are located somewhere in the City of Abbotsford. As you find each hidden cache, you will have to solve a puzzle to help crack the case and identify the suspect. Pay close attention and do not forget to bring along a pen and the Crossword / Word Scramble!.

Once you have found each AbbyPD cache and think you have the solution, visit us at our Headquarters building located at 2838 Justice Way to receive a fun prize, courtesy of the Abbotsford Police Foundation (*while supplies last*).

Enjoy a COVID-friendly outdoor event and help Constable Cuffs solve this whodunnit mystery!
