STRENGTH IN COMMUNITY

Abbotsford Police Department General Investigation Section investigators and Integrated Collision Analysis and Reconstruction Service continue investigating and collecting evidence to further this investigation and criminal charges. Though we are in the early stages of this investigation, alcohol, and speed are suspected as a factor in this collision.

Police are appealing to the public to come forward if they witnessed the incident or were in the area and have dashcam footage that may further assist in the investigation. Specifically, police seek to speak to anyone who witnessed the collision or the driving behaviour of either vehicle before the crash. Investigators believe there were multiple witnesses and are particularly interested in locating a male whose silver Dodge pick-up truck was parked in the A & W parking lot and a male and female who were traveling East on North Parallel Road in a white four-door car.

Investigators would like to speak to these witnesses. If you have information about this incident, please contact the Abbotsford Police Department at 604-859-5225.
