## **AbbyPD Investigating Mischiefs to Cell Tower**

The Abbotsford Police Department's General Investigation Section (GIS) is currently investigating three separate mischiefs that have occurred to a cell tower located within the 35000 block of Raven Court. In each of the incidents, which occurred in the evening hours of January 1st, 8th, and 12th extensive damage was caused to the communications equipment located at the site resulting in thousands of dollars damage.

Damage to critical infrastructure of this nature is very concerning to the AbbyPD. Additionally, incidents like this can impact calls to 9-1-1 from callers using cell phones around the cell tower should the equipment be taken offline.

With the assistance of the AbbyPD Forensics Identification Section, GIS investigators continue to advance this investigation and are releasing images of the suspect to the public for assistance in this investigation.

Anyone with any information on these incidents or information relating to the suspect, is asked to contact the Abbotsford Police Department at 604-859-5225. We further encourage residents in the area to report any suspicious activity to police.
